ASTM A554 STAINLESS STEEL PIPE

Overview

Building materials industry is now entering the era of globalization. With increasingly stringent conditions, the construction industry is required to improve the competitiveness of the company for competence in the era of globalization.

Human resource, technological advances, and the ability of professional management are benchmarks that we implement. Of course, we also maintain the quality standard and expand our production capacity.

At the beginning, PT. Wijaya Prawira Perkasa started as trading and distributor. Our company has developed a factory in Margomulyo, Surabaya. Until in 2010, we officially built a factory site that will improving the motivation and resources in creating products and innovation for building material with modern technology.

Only with your cooperation and trust, PT. Wijaya Prawira Perkasa could successfully developed this business in to the leader in construction material market competition, especially in Indonesia and all around the world. Until today, our company has managed to give maximum contribution for society.

Company Profile

With 7 years of stainless steel pipe making experience, Lion Head has become one leading brand of stainless steel pipe in Indonesia. Lion Head today is located in more than 150000 m production plants, owning 30 production lines, and all the pipe machineries.

We are specialized in producing both SUS 304 & SUS 201 Grade of ASTM A554 pipe.

For these years, Lion Head has Successfully maintained it's quality to supply only the best product to customer around the world.

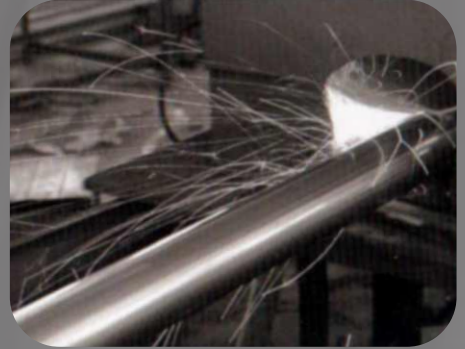

VISION

- Become a leader in stainless steel pipe market competition with great reputation of quality and management standard in Indonesia and around the world

MISION

- Conduct a sustainable improvement of product and services for customer
- Create a positive work environment for employees and give back to the society

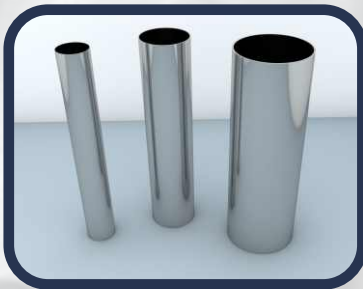

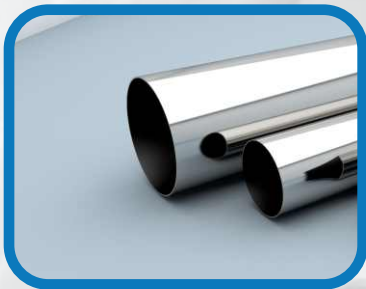

Tungsten Inert Gas (TIG) Welded Stainless Steel Pipe With High Quality Standart

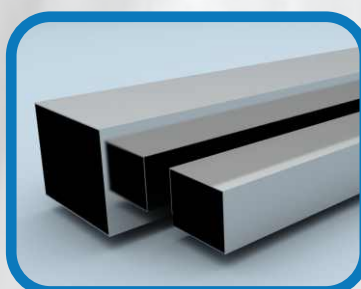

Our SS pipe products are made with high precision and raw material quality
We ensure that each product bears quality standards of :

Wall Thickness as aimed | Seamless welding line | Polishing grit as required | Precised outer dimension

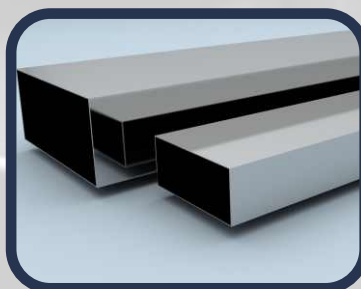

- **Round Stainless Steel Pipe**

- **Square Stainless Steel Pipe**

- **Rectangle Stainless Steel Pipe**

Stainless Steel Pipe ASTM A554

SPECIFICATION

Thickness	as per customer order within 0.5 mm to 3.5 mm
SS Grade	SUS 304 & SUS 201
Length	6m Standard or as customer request
Welding Line	Seamless appearance
Surface	Both mirror and hair line finishing polished ranged within GRIT #180 to GRIT #600
Packaging	Sea worthy packaging standard

Round Pipe Size (Inchi)

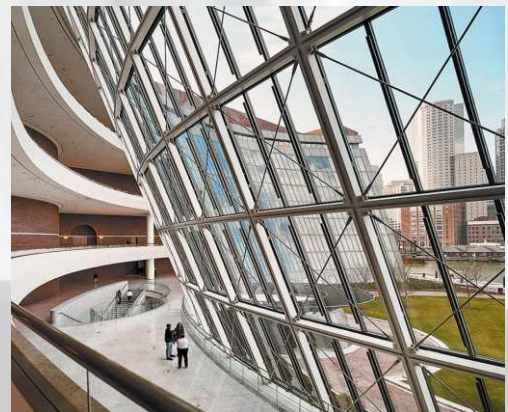

5/16"	3/8"	1/2"	5/8"	3/4"	7/8"	1"
1 3/8"	1 3/4"	1 2/3"	1 1/7"	1 1/4"	1 1/2"	1 2/5"
2"	2 1/4"	2 1/2"	2 3/4"	3"	3 1/2"	4"
5"	6 1/4"					

Square Pipe Size (mm)

4x26	4x30	6x40	8x72	10x10	10x20	10x25
10x30	10x40	10x50	10x60	10x70	12.5x12.5	12.72x12.72
13x25	15x15	15x25	15x30	15x40	15x60	20x20
20x30	20x40	20x50	20x60	20x80	25x25	25x38
25x50	25x75	30x30	30x60	40x40	40x60	40x80
40x100	30x50	50x50	60x60	70x70	80x80	100x50
100x60	100x100	125x125	150x60			

Application :

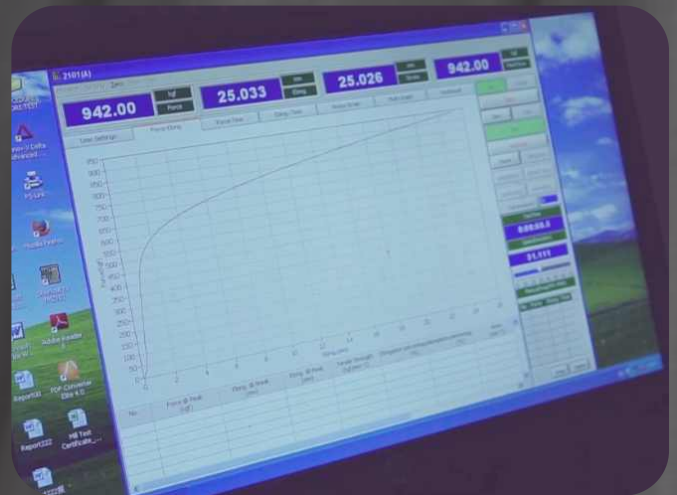

Decoration, Kitchen, Building, Interior & Exterior, Furniture, Railing and other Construction Material

Lion Head Stainless Steel Pipe Product Quality

Lion Head Stainless Steel Pipe has equipped our production quality control with advanced testing and equipment checking. The equipments are tested, standardized, and annually checked for their accuracy. Our QC officers consist of reputable, skillful, and fast response human resources who have mastered our products quality standard.

Lion Head Stainless Steel Pipe has established a complete quality control to warrant every customers satisfaction. With ISO 9001 standard, our company implies multiple quality control steps toward our product. Starting from the raw material inspection, production process control, to finish product checking; our quality warranty is hard to be failed.
